## ABOUT THE AUTHOR AND FOUNDER

**C.C. Zain  
(Elbert Benjamin)  
1882 - 1951**

Author of the Brotherhood of Light Lessons C. C. Zain is the pen name used by Elbert Benjamin, the noted astrologer, naturalist and occultist, for those writings done under the aegis of The Brotherhood of Light during the years 1914 - 1934. This body of knowledge, referred to interchangeably as The Brotherhood of Light Lessons or The Religion of the Stars, was envisioned by Zain to be a world religion of the future.

The mission of Zain's writing is centered on a nine-point plan to insure the citizens of the world Freedom from Want, Freedom from Fear, Freedom of Expression, and Freedom of Religion. To obtain these freedoms he encourages the individual to become familiar with the Facts of Astrology, the Facts of Extra-Sensory Perception, the Facts of Induced Emotion and the Facts of Directed Thinking. The moral code is "Contribute Your Utmost to Universal Welfare." Within the first half of the 20th century B. of L. teachings were distributed around the world.

Elbert Benjamin, was born Benjamin P. Williams in the small town of Adel, Iowa, December 12, 1882. His family remembered his birth because it was the year a comet flashed across the sky. His father was a doctor and a deacon in the Disciples of Christ Church. His interests in occultism and astrology were frowned upon in his community. He changed his name to Elbert Benjamin upon moving to Los Angeles in order to protect his family.

Benjamin's desire was to be a naturalist. As a boy he spent every free hour in the woods observing the habits of wild things, an enthusiasm that would continue his entire life. He later held the position of president of the Southern California Nature Club for 25 years and was responsible for the establishment of a bird sanctuary in Los Angeles. Benjamin contacted the Brotherhood of Light in the spring of 1909 and was commissioned to place the teachings in writing. In his day Elbert Benjamin was a unique leader. He opposed hero worship and cult-like behavior. He discouraged members from taking any of his writings on blind belief. Instead he encouraged them to subject them to rigorous testing of their own. Church of Light members are given freedom of conscience and encouraged to study as many things about religion, science and the mysteries as they can and then draw their own conclusions.

This catalog offers C. C. Zain's legacy in books.

# BROTHERHOOD OF LIGHT EGYPTIAN TAROT CARDS...

## The Brotherhood of Light Egyptian Tarot Cards

Tarot cards are a system of symbolical pictograph writing through which Egyptian initiates conveyed spiritual ideas derived from a still more ancient past. These cards indicate the corresponding astrological symbolism and numerological symbolism associated with the Roman, Hebrew, and Egyptian alphabets.

These exquisite full-color tarot cards are a system of symbolical pictograph through which Egyptian initiates conveyed spiritual ideas derived from a still more ancient past. As astrology is the Golden Key and the tarot is the Silver Key, this is the only deck that correctly indicates the astrological correspondence on each card and the numerological symbolism associated with the Roman, Hebrew, and Egyptian alphabets.

The deck contains a booklet outlining the history of the Egyptian tarot deck, descriptions of the cards and instructions for use including various spreads.

A more detailed exposition and instructions for use in divination and spiritual science can be found in (CS06) *The Sacred Tarot* by C. C. Zain — REF#CS06 (see opposite page).

## BROTHERHOOD OF LIGHT TRADITION

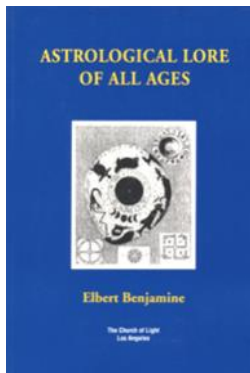

### **Light of Egypt—Thomas H. Burgoyne Two Volume Set**

This two volume set is a must have for any earnest student of the occult sciences. Burgoyne was a member of the Hermetic Brotherhood of Luxor, the precursor to The Brotherhood of Light, which became a public organization incorporated as The Church of Light in 1932. First published in 1900, this work was, in part, a response to H. P. Blavatsky's "Isis Unveiled" in which she introduces western occultism to the Hindu concepts of karma and reincarnation, published in 1877. The Light of Egypt is one of the first books to fully present the hermetic (occult) sciences that formed the basis of The Brotherhood of Light. This book is an occult library in itself, a textbook of esoteric knowledge, setting forth the ancient "Wisdom Religion" as taught by the adepts of hermetic philosophy and science.

Volume I includes chapters on the science of the soul, the mysteries of sex, karma and reincarnation, mediumship, the sacred cycles known as La Clef Hermetique, astrology and alchemy. Volume II covers astrology, astro-theology, astro-mythology, alchemy, talismans, ceremonial magic, The Tablets of Aeth and the Mysteries of Eros.

### **Astrology: 30 Years Research—Doris Chase Doane based upon Church of Light Research**

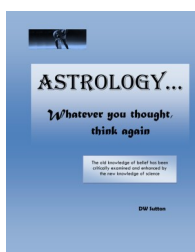

This exceptional and unique volume is the culmination of thirty years of research conducted by The Church of Light. The research involved the study of thousands of timed birth charts and their associated signs, aspects, house placements, and progressions. It reveals the constants that indicate many health conditions, life events, careers, earning potential, longevity, and relationships. Each of these is listed in a tabular format with discussion about what the research revealed. In addition to the extensive sections that list and analyze the research data is a chapter that focuses on case studies of twins and how their lives paralleled and differed over time. One case study examines fraternal twins, and another looks at identical twins.

The research information presented is valuable both in its usefulness as proof of astrology's validity and as an aid to the astrologer and student in identifying potential events and tendencies indicated in the birth chart and through transits and progressions.

### **Beginners Horoscope Maker & Reader—Elbert Benjamine**

This book by Elbert Benjamine was originally published by The Aries Press, Chicago, Illinois, in 1943 as two volumes: *Beginner's Horoscope Maker* and *Beginner's Horoscope Reader*.

Part One, the “Maker” was written at a time when astrological charts were calculated by hand using, what at the time, was simple mathematics. Today computers are faster and more accurate than performing the tedious hand-calculations. However, for anyone seeking a thorough understanding of aspects and the finer nuances of chart interpretation, it can be very helpful to understand the math and *Beginning Horoscope Maker* is helpful in this regard.

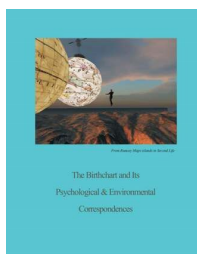

Part Two, the “Reader” is a simplified system for interpreting a chart. Its brief interpretations are helpful for gaining insight into a birth chart and for learning how to synthesize the various components of a chart. Interpreting the symbols on a chart is a daunting task for the beginning student. The “Reader” helps bridge the chasm between the beginner and the proficient.

### **The Birthchart and Its Psychological & Environmental Correspondences—D. W. Sutton**

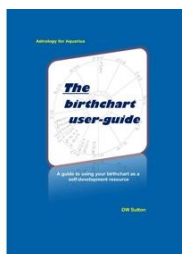

Having constructed the natal horoscope, a map of the heavens that locates the zodiac signs and planets at the birth time and date as viewed from the birthplace, the question arises “what does it all mean?” What is this map really all about and what do the planets, zodiac signs, houses and aspects really indicate? The function of this book is to answer and explain these questions. Primarily the birth chart is a map of the unconscious mind or astral body of the person then born. The unconscious mind holds within its organization all the experiences and states of consciousness that the soul has had up to the time of its human birth and these states of consciousness form the character. The astral body is a form built by mental and emotional states; and the birth chart, which is a map of these mental and emotional states, conveys to the student of astrology precise information regarding these mental factors and their relations one to the other and how they affect the abilities and character, and therefore the destiny.

### Body Disease and Its Stellar Treatment—Elbert Benjamine

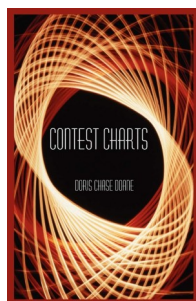

Stellar Treatment works on the principle that each one of us functions in two environments: our physical body lives on the physical or outer plane and our soul or thought-built structure operates on the astral or inner plane. The word astral means “pertaining to a star,” and one’s astrological chart is a map of one’s soul structure or astral body. The Hermetic Axiom, “As Above, So Below” infers that the structures of the physical body are a reflection of the soul structures as mapped in the chart of birth. A careful analysis of the birth chart can reveal the discords in the soul and help ascertain the physical diseases towards which one is predisposed.

This classic book, first published in 1945, describes how habitual thinking, as mapped by the natal chart and reinforced by progressed aspects, influences the endocrine system, and thus the rest of the physical body. By applying the suggested Thought-Cell Treatments, one can work on healing the inner causes of disease.

### Delineation with Astrodynes—Ken Stone

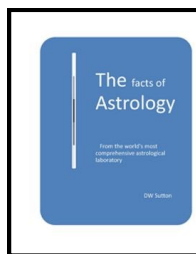

The use of astrodynes takes much of the guesswork out of chart interpretation by mathematically determining the relative power in a horoscope. Simply put, astrodynes allow a greater precision in birth chart interpretation. Previously, the chart ruler was considered to be the ruler of the Ascendant. Now, the strongest planets, signs, and houses can easily be determined, leading to more accurate assessment of vocation, temperament, and compatibility. The level of harmony or discord will indicate the fortune that can be attracted by each factor. There is a difference between power, which is a potential for action, and harmony, which is the effect of the action. The amount of strength in the chart will show how insistent are the desires, or specific areas of life. Whether they express in harmony or with difficulty has little to do with the amount of power they have. Therefore, the first step in a better understanding of how to use astrodynes in a birth chart is to understand what power is in a chart, what harmony is, and the difference between the two. The author explains these differences and focuses on the interpretation of astrodynes, including specifics about each planet, house and aspect.

### The Facts of Astrology—D. W. Sutton

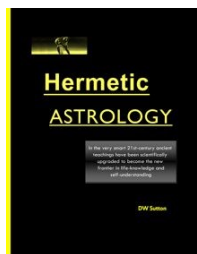

In 1924 the question was asked ‘why don’t we investigate birthcharts and find out why people do what they do?’ and thirty years later astrology had been transformed from a superstitious belief system into an evidence-based science supported by fact, after fact, after fact. These facts – representing the science of astrology – provide Hermetic Astrology with a scientific foundation and you with a sense of security and confidence.

But today, 90 years after that question set the astrology revolution in motion, too much astrology is unsubstantiated theory and if you’re a serious student of astrology you can’t afford to use teachings and practices that are not verified by evidence-based statistical research.

Now, for the first time, all these facts have been assembled into a single volume that allows students quick and easy access to all the currently known facts of astrology.

### How to Read Cosmodynes—Doris Chase Doane

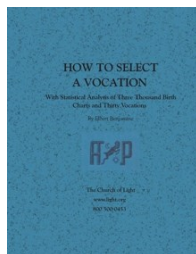

How to Read Cosmodynes fills an important need in the astrological field. Many know of this method of measuring the relative power of the planets, signs and houses, but few know how to use it in their daily astrological practice.

Yet it can be the key to seemingly inexplicable factors in an individual horoscope. Cosmodyne patterns indicate how delays, obstacles and confusion can be avoided. They point to where the energy-expenditure should be directed, how it should be channeled, and the associations which will enhance the demonstration of success. Once you experiment with the use of cosmodynes, you will never give them up. Probably you'll wonder how you managed to do without them for so long.

### Modern Horary Astrology—Doris Chase Doane

Modern Horary Astrology is a formidable compilation of 60 years of observation and research, based on more than 125 clearly defined and diverse horoscopes explained in detail. The first five chapters focus on the rules for reading a horary chart. Subsequent chapters feature queries pertaining to matters reflecting each of 12 houses, with additional information on house-related events such as marriage, divorce, lost articles, health and missing persons. For example, after a year of marriage, a woman asked if she would have any children, having been told by her physician that she was barren. The author demonstrates viewing the chart from a long-term perspective coordinated with natal and progressed charts. Progressing the horary chart, and the author accurately predicted the outcome. Non-radical charts are addressed. A chart might appear unreadable because the Ascendant is less than three degrees or more than 27 degrees or a void-of-course Moon but there are times when it can be read. Modern Horary Astrology takes the complexity out of horary chart mechanics and clearly exemplifies how this valuable branch of astrology can be of assistance in answering an extensive range of questions.

All things considered the most important matter in astrological work is the assessment of planet prominence. A planet's prominence – in any birthchart – measures its ability to impress its influence upon the life. And the most important factor in astrological research is the integrity of the research model used to determine planet prominence. This book is a great tool for sharpening your astrological chart analysis skills. It explains the planet prominence rule, how to use it and discusses issues that commonly arise. It then explains how to determine planet prominence using Astrodynes, C. C. Zain's great tool for numerical chart analysis.

## **Come Into the Light—D. W. Sutton**

Each and every spiritual seeker is on a quest of self-discovery where we yearn to know what role we are to fulfill in God's Great Plan. In our search, we ask the questions; "Who am I?" "Where do I come from?" and "Where am I going?"

Hermetic Philosophy, as outlined in The Brotherhood of Light Lessons offers responses to these questions. It teaches that we humans are composite beings, comprised of both physical and non-physical counterparts. The study of genes, DNA and heredity can offer insights into the functioning of our physical beings, but falls short in answering questions about our mind, consciousness and the soul. Hermetic Astrology offers insights into the functioning of our non-physical beings, and in many ways operates as a key to our spiritual DNA, describing the inner workings of our not-conscious mind or soul.

Come into the Light explores the Hermetic Worldview in an easy-to-understand language. It stands up to Atheistic Materialism and suggest that there is a path where science and religion are compatible – that path is Hermeticism. It proposes that the best path to self-knowledge is through having a map of your soul – your birth chart, and that the best approach for understanding that map is Hermetic Astrology. An added benefit, this book contains a glossary of astrological terms and copious notes and references.

### **The Divine Pymander & Other Writings of Hermes Trismegistus—Edited by John D. Chambers**

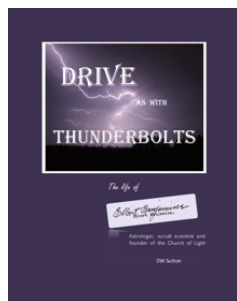

A gold mine of ancient wisdom, illuminating and highly relevant.

The author, Hermes Trismegistus, may not have been a single personage, but the information here is both illuminating and highly relevant. These teachings have been often referred to by the greatest philosophers of Greece and the Church Fathers of Christianity. Tertullian and Justin Martyr once stated that if anyone wanted to learn about God, they should listen to Hermes. He and/or the writers of this work likely lived in Alexandria, and were influenced by early Christian and Gnostic ideas.

### **Drive as With Thunderbolts: The Life of Elbert Benjamine aka C. C. Zain—D. W. Sutton**

Your life is a journey of discovery, and if you've discovered Elbert Benjamine you know you've encountered someone special – a grandmaster of astrology, occult forces and spiritual living. Elbert explains the facts of life, invites you to discover yourself and then makes your journey of self-discovery so much more meaningful, interesting and exciting. But chances are you know very little about this remarkable man and the life he lived.

You can Google Elbert Benjamine – CC Zain – but most internet sites provide biographical sketches that are riddled with errors and hopelessly inadequate. They just don't help. And as time unrelentingly marches on, Church of Light members in the 21st-century know very little about the founder of their church and the spiritual leader who re-established the Religion of the Stars here on Earth.

So who was Elbert Benjamine? How did he prepare himself for the work he was chosen to do? And how did he acquire the information, write the words, get the words published, teach, recruit students, supervise all the research work and manage Church of Light affairs? Chances are you know very little about the man who captures your imagination and has you wondering.

### **Letters to the Sage, Vol I, The Esotericists—Edited by Patrick D. Bowen and K. Paul Johnson**

Selected Correspondence of Thomas Moore Johnson.

Late 19th Century America was a time and place when our nation underwent an occult renaissance. Esoterically-inclined Americans were delving into yoga, Sufism, Platonism and the tarot, in part due to the birth of two esoteric organizations: the Theosophical Society and the Hermetic Brotherhood of Luxor. Vital to both organizations was Thomas Moore Johnson, a small town lawyer from western Missouri, frequently referred to as "the Sage of the Osage." Johnson was the publisher of The Platonist, a short-lived but influential philosophical journal printed intermittently between 1881-1888. A prolific writer, Johnson maintained correspondence with most of the key figures from the early years of America's occult revival.

### **The Formula: Seven Steps for Healing from Depression and Manic Depression—Alicemarie Joana O'Neill**

In the course of a lifetime nearly everyone will have either experienced depression, or will have known someone with depression. The proliferation of pharmaceutical commercials underscore the fact that depression is the 4th leading cause of disability worldwide. In Western culture, mental illness has carried a stigma that is not attached to physical illness.

Historically, depression has been regarded as a sign of weakness or a character flaw and is a topic that is just not openly-discussed. Persistent depression and manic depression are mental health issues that are only now beginning to receive greater public attention and understanding.

Hermetician Alicemarie O'Neill has developed a procedure for healing the pain of depression that she has outlined in her book, "The Formula". Ms. O'Neill's formula evolved out of her own episodes of manic-depression combined with her life experiences as a mental health care professional and spiritual counselor. She offers an approach that is holistic; attending to body, mind, and spirit. Her step by step process promotes healing by embracing the value that can be found in both traditional and nontraditional methodologies.

The Formula is based in part on the Hermetic Art of Mental Alchemy. It offers useful tools for anyone battling depression, as well as insights for spiritual counselors who may be assisting clients struggling with mental illness. The Formula is written in a personal, intimate style and offers real hope for healing and transformation for anyone traveling on a journey towards wellness.
